SPX - FULFILLMENT

How much does fulfillment cost?	15
---------------------------------	-----------

Basic information

What is included in the shipping price?

Shipment insurance
up to PLN 500 (applies to all services except LitePack shipments)

Road toll charge
always included – no additional surprises in settlement

Fuel surcharge
updated on an ongoing basis to eliminate concerns related to fuel price fluctuations

Labels
shipping labels generated independently in our system within seconds

Note: Prices do not include VAT.

Chargeable Weight

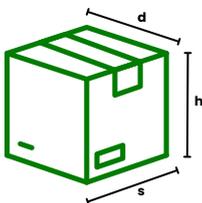

Chargeable weight is the weight used to calculate the shipping rate. For both domestic and international services, dimensional weight applies if it exceeds the actual weight.

How to calculate chargeable weight?

- Actual weight: Use any standard scale to determine the parcel's weight. Round up to the next full kilogram.
- Dimensional weight: Divide the parcel volume (in cm) by 5000. Round up to the next full kilogram.

Chargeable weight determination

Compare actual weight and dimensional weight. The higher value is the chargeable weight.

$$\frac{d * s * h}{5000} = \text{dimensional weight}$$

d = length in cm
s = width in cm
h = height in cm

Longest side: 120 cm
Maximum girth (sum of sides): 160 cm

Minimum dimensions - d*s*h = 15*11*1 cm

Payment Terms

Standard

- Collective invoice issued every 7 days. Payment term: 7 days.

Prepaid

- Advance payment (before services are performed). 1% discount on total invoice value.

Factoring

- Payment via factoring platform. Extended payment terms (according to platform conditions).

Price list – shipments

- GREECE**
 - cash - € 1,20 - maximum COD amount € 1,000

Cash on delivery settlement is processed twice a week – every tuesday and thursday.

Additional charges

Non-standard shipment surcharge - when does it apply?

- Maximum dimensions are exceeded
- Actual or dimensional weight exceeds 30 kg (or volume exceeds 140 litres)
- Parcel is packed differently than in a polybag or rectangular/cubic carton
- Parcel is wrapped in stretch foil
- Shipping label is not placed on the longest side

Non-standard shipment surcharge (all countries): € 24,00

Remote Area Surcharges

Green/extended zones include island deliveries and hard-to-reach locations. The full list is updated monthly at: sp.express/w2/remote-area

Extended zones (all countries): € 36,00, green zones: € 2,50 and Islands: € 5,00

Weight/dimension verification

Applied when sorting facility measurement shows discrepancy between declared and actual/dimensional weight.

Difference surcharge (all countries): € 5,25

Address correction

Address correction surcharge (all countries): € 0,72

Seasonal surcharges

High season surcharge (1 November - 31 December): € 0,20 (all countries).

SPX – UK direct entry **2026**

Procedures & documents

Shipment Processing Procedure to the United Kingdom

1. Formal Requirements

- **Authorization for the Customs Agency** - the client is required to independently send the original authorization (indirect and direct) to the Customs Agency.
- **Registration time** - the authorization registration process at the Customs Office usually takes approximately 3 business days.
- **Identification data** - EORI PL and UK VAT numbers are required for customs clearance.

Value limit - Shipment of goods up to £135 (GBP) in one parcel to one consignee is allowed.

2. Shipment preparation in the SP Panel

For each parcel the client must complete detailed data:

Reason for Export	Terms of Trade	Value Currency	Invoice ID	Quantity	Unit Value (net)	Unit Value (gross)	Country of Origin	HS Tariff Code	Description	Unit Weight (net, g)	Unit Weight (gross, g)	Unit of Measurement
Sales of Goods	DDP	GBP										

3. Schedule and logistics

- **Shipping days** - transport manifests are created on Mondays, Wednesdays, and Fridays.
- **The manifest** includes parcels physically handed over to SPX before its generation.
- **Logistics handling:**

Process coordinated by Real Logistics,
ul. Strzegomska 140A, Wrocław.

4. Customs clearance and documentation

Based on panel data, a collective customs invoice (Customs Invoice) is generated for each client.

Important:

This document is used only for export clearance in Poland and import clearance in the UK and is not an accounting document.

After completion the client receives:

From Poland:

- EX document
- XML file from export clearance

From the United Kingdom:

- CDS import document after UK clearance

5. Delivery

After successful import in the UK, parcels are handed over to the local operator, who performs delivery directly to the final recipient.

Price list and charges

Additional costs

1. Customs clearance - HS items

HS code handling fee: €1.5/HS code
Charged for each unique tariff code declared in the shipment.

2. Export declaration

Export declaration (consolidated clearance): €30 / client / transport
One-time fee charged per client transport, regardless of the number of shipments that day.

3. Commodity lines (customs lines)

Customs line - product diversity: €0.20 / line

One line means one unique product (SKU) assigned to the final consignee in a given parcel.
The cost depends on the number of different products in the shipment.

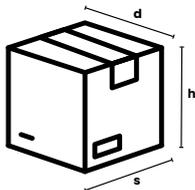

WEIGHT (KG)	PRICE (EUR)	WEIGHT (KG)	PRICE (EUR)
1	4,30 €	16	20,00 €
2	4,90 €	17	21,00 €
3	5,40 €	18	22,00 €
4	6,00 €	19	23,00 €

6	7,25 €	21	25,00 €
7	8,50 €	22	26,00 €
8	9,50 €	23	27,00 €
9	10,80 €	24	28,00 €
10	12,50 €	25	29,00 €
11	14,50 €	26	30,00 €
12	16,00 €	27	31,00 €
13	17,00 €	28	32,00 €
14	18,00 €	29	33,00 €
15	19,00 €	30	34,00 €

SPX LitePack **2026**

Light package light price

SPX LitePack is an intelligent choice for business customers who want to optimize logistics costs for small goods, documents, or samples.

LitePack shipment parameters

Maximum dimensions: 30 × 20 × 8 cm
Actual weight: max. 1.00 kg

Purpose - service available for most EU countries.

Shipping method - shipping labels must be generated independently in our system.

Packaging - the shipment must be packed in a rectangular carton or polybag.

Insurance - each shipment, despite the lowest price, is insured up to €20. This is a security guarantee included in the service cost.

Injection methods

We offer two flexible methods of injecting parcels into our network:

Delivery to SPX warehouses (option for all clients)

Possibility to send consolidated parcels from anywhere in Poland to one of our main sorting warehouses.

The client organizes linehaul transport independently, gaining access to the lowest LitePack rates regardless of location.

Free courier pickup by SPX (option for clients in the zone)

For clients whose pickup address is within the SPX fixed pickup zone, we offer free regular pickup by our courier.

Important

The product is subject to the same packaging guidelines and non-standard surcharges as the standard SPX service.

If weight or dimensions are exceeded, the price will be charged according to the actual or volumetric weight from the standard price list.

To ensure the lowest prices and logistics cost optimization, the standard delivery time of SPX LitePack shipments may be extended by 1-2 business days compared to our standard service.

COUNTRY	CENA (EUR)
GERMANY	2,70
HUNGARY	2,95
ROMANIA	2,95
SLOVAKIA	3,30
CZECH REPUBLIC	3,35
AUSTRIA	3,50

The charges in both price lists follow a hybrid model and are mutually exclusive. For instance, if you are charged for PUT RETURN IN POSITION, no INBOUND charge will be applied.

Security & Insurance

Our operations are fully secured - from 24/7 monitoring of facilities to comprehensive insurance. Every step of the fulfillment and returns handling process is tracked, ensuring full transparency and protection of goods.

Flexible Integration

From managing seasonal order spikes to handling complex return logistics, our infrastructure and resources are ready to scale with customers' needs, eliminating the need to build and maintain an in-house warehouse.

Pan-European Network

With SPX's logistics structure and network of connections across Europe, we can support customer warehouses in many countries, ensuring fast, cost-effective and reliable cross-border flows.

Scalable Support for Your Operations

We operate with both our advanced WMS system and seamlessly integrate with customer systems. We tailor our processes to the customer's requirements, which allows us to operate smoothly without having to make changes to existing operational processes.
