The above summary presents the recommended operational routing in effect from the indicated date.

At the same time, it should be emphasized that SPX operates within a flexible logistics orchestration model - we cooperate with a broad network of last-mile carriers across Europe and tailor solutions individually, depending on the Client's needs, sales structure, and expectations.

Many of our partners use dedicated carrier configurations that go beyond the standard routing presented in this document.

If the current summary does not fully meet your needs or if you would like to optimize costs, delivery times or your distribution structure - we encourage you to contact your SPX commercial account manager directly.

We are ready to prepare a solution tailored to your business model.
